**SAFE EYES WINS PC MAGAZINE'S
EDITOR'S CHOICE AWARD FOR THE SECOND YEAR IN A ROW**

**Internet Security Leader Safe Eyes Still Parents'
Best Choice for Keeping Families Safe Online**

ATLANTA, June 12, 2007—Parents trying to select the best Internet safety solution just received a big helping hand from *PC Magazine*. For the second year in a row, Safe Eyes has received the magazine's Editor's Choice Award.

In reviewing the Safe Eyes version 5.0, *PC Magazine* noted that, **"Safe Eyes 5 does everything you'd expect a parental control utility to do and more.** Its Web-based protection covers up to three computers (PC or Mac) and allows remote management from a browser. And this is one tough cookie—the kids won't break its protection."

Safe Eyes' Chief Technology Officer Aaron Kenny called the award further motivation to continue to innovate in the area of Internet safety. *"The threats to a child's safety online are constantly changing,"* said Kenny. *"Keeping a child safe requires a combination of people and technology—bringing the best of both together is what Safe Eyes is all about."*

The 5.0 version of Safe Eyes offers new advances in the award-winning software. In addition to new features like e-mail blocking and social network monitoring, Safe Eyes' new interface provides the easiest-to-use, most effective Internet safety solution in the marketplace. **"Computer-phobic to Internet-savvy parents will appreciate Safe Eyes' user-friendly control panel and easy-to-understand reports,"** said Kenny. *"We want to make it as simple as possible for families to stay safe online."*

Safe Eyes is a service of SafeBrowse.com. Founded in 1999 by entrepreneur brothers Shane and Aaron Kenny, SafeBrowse.com's Internet safety solutions help parents and businesses provide a safe Internet environment for their families and employees. Safe Eyes and EtherShield—the suite of Internet safety solutions developed by SafeBrowse.com—are the next generation of online protection for PCs and Macs.

Safe Eyes is available online at www.SafeEyes.com. For media information, visit the press room at www.SafeBrowse.com/press.
