

safeeyes

Two time winner of the PC Magazine's Editors' Choice award, Safe Eyes is the most complete online protection for your entire family! Safe Eyes makes it easy to block objectionable websites, limit time spent online, monitor instant messenger chats and control peer to peer file sharing. Whether you are using a PC or Mac, Safe Eyes is the name you can trust to provide all of the benefits of the Internet with none of the worry.

June 6th, 2007
Safe Eyes 5.0

Web Blocking

Block up to 35 categories of objectionable websites.

Social Networking

Record when inappropriate or personal information is posted.

Time Limits

Manage the amount of time your children use the Internet.

YouTube® Filtering

Allows the fun of YouTube® but blocks objectionable videos.

Instant Messaging

Block or monitor IM chats to protect against predators.

Usage Reporting

View all Internet and instant messaging activity by user.

Email Blocking

Control with whom your children can send and receive email.

Instant Alerts

Receive email alerts when access to objectionable material is attempted.
